

# EZCaster<sup>®</sup>

## LIVE STREAMING AND ON-DEMAND VIDEOS with the FLIP of a switch

TechWerks EZCaster Encoder and online management software make streaming live video easier than ever before. Broadcast and publish video with the touch of a button. Even amateur web designers can produce videos for the Internet. Just plug in the AC power, Internet connection, and any audio/video source. Turn on the EZCaster, and when you're ready to broadcast to the world, touch the start button and broadcast live to the whole world instantly.

There are two major parts to streaming video: the video compression/streaming and the publishing of videos to your website. With the EZCaster Encoder, your website's html page can automatically be updated with a "watch live video" link. website users simply click to view your live broadcast!
